### DETAILED ACTION

Non-Final Rejection

#### Election/Restriction

1. Applicant's election with traverse of Group II, Species A, Figs. 1-4, claims 2-6 in Paper No. 7 is acknowledged. The traversal is on the ground(s) that the search and examination of the entire application could be made without serious burden. This is not found persuasive because additional search and/or consideration will be required for the other species.

The requirement is still deemed proper and is therefore made FINAL.

Claims 7-8, 17, 20, and 22 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species.

# Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Application/Control Number: 09/988,648

Art Unit: 3612

2. Claims 2-6, 9-16, 18-19, 21, and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Motozawa et al. (6,203,098).

Regarding Claims 2-6, 9-16, 18-19, 21, and 23, Motozawa et al. (6,203,098) discloses in Fig. 1-12 the invention as claimed to include a lateral bumper reinforcer, 10; a pair of front-rear hollow crash boxes 8 with constant rectangular cross-section, sides, ridgelines and two ends; a vehicle body 7; and a initial buckling portion 9 along the entire circumference devoid of holes.

## Response to Arguments

1. Applicant's arguments with respect to elected claim have been considered but are most in view of the new ground(s) of rejection. The new ground(s) of rejection presented in this Office action was necessitated by Applicant's amendment.
